SUPPLEMENT TO REPORT NO.

- On 18 September 1950 a large tunnel, located near Skoplje, was mined and blown up. The explosion caused a discontinuance of railroad traffic for ten days. This was the second act of sabotage executed on this tunnel, the first having occurred in May 1950 at which time traffic was interrupted for a period of three weeks.
- On 27 September 1950 fire was set to the naptha wells located at Velika Greda, on the Vrasac-Zrenjanin line.

CONFIDENTIAL

CLASSIFICATION X HAVY STATE MSRB DISTRIBUTION ARMY

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
